I have to say I was skeptical, but RianaAI was really amazing. Simple, accurate and really cool to use. I seriously felt like it was a live coaching session! As a therapist, I am very particular about referrals. Here there is no hesitation. The personal edge with the convenience of AI. Brilliant!!!!

I had a great experience with RianaAI. All my questions were answered on my native language perfectly, Brazilian Portuguese, which was very good. It made me feel very confident with my relationship. She was very precise with her answers, and very helpful. I highly recommend it.

Overall, I've had a great experience using RianaAI. As a college student, one of the things I appreciated most was how accessible and easy it is to use. Between classes, extracurricular activities, work, and everyday life, it can be difficult to find time to seek advice or support when you need it. Having a resource available at any time, right from your phone or computer, makes a huge difference.

I have tried RianaAI Video Interactive Chat Avatar numerous times and I have read several of Coach Riana's books and other publications. I am very impressed by not only the very easy User Experience, but also at the wealth of clear, useful, and helpful coaching provided by the video avatar - RianaAI. 5-stars!!

During Riana's Diamond VIP program, I quickly realized that my insecurities that held me back were pointless and only harming my potential. Riana got me free from that burden, and I began to stop isolating and branch out to enjoy the people around me. Riana helped me explore my interests, hobbies, and career ideas to set me on a path towards a realistic and desired goal.

I enrolled in Riana's 6-month VIP program and It has truly changed my life. Riana helped me to uncover some deep-seated emotional beliefs that I wasn't even conscious I had. The questions she asks and the worksheets we did month by month to uncover and heal my past was like no therapy I have ever done anywhere!

I had the privilege of working with Riana Milne for several years as a colleague working with adolescents and children. I am also aware of the excellent work she does with adults. She is a caring professional who enables her clients to develop the skills to deal with their emotional challenges. She is grounded in evidence-based practices and is a tireless advocate for her clients. I would and have recommended her to provide Coaching or therapy to troubled clients of all ages.
